

## Privacy Concerns

Our office is fully compliant with HIPAA (the Health Insurance Portability and Accountability Act of 2002) and as such we will do our best to protect the privacy of your medical information, both paper and electronic, and will in most circumstances only release what is needed for medical treatment and insurance payments. Our privacy policy is posted in the waiting room and a copy is available for you at the front desk at your request.

I acknowledge that I have reviewed the *Notice of Privacy Practices* from Pavlik Chiropractic / Access Healthcare of Orlando.
